

The Early Education and Intervention Network of New Hampshire (EEIN)

Corporate Partnership Letter

Background

EEIN is a private not for profit organization celebrating over 25 years of providing a wide array of training opportunities to professionals, paraprofessionals and parents to build their knowledge, skills and abilities in working and living with children birth to six with developmental challenges. Each year we sponsor numerous events based on the current needs for training. We have the only mentorship program in NH for early childhood developmental specialists, a scholarship program, and multiple conferences, round tables, seminars and inservice trainings. We provide six newsletters a year with indepth topics and new research effecting the field. We partner with a wide array of organizations and businesses to sponsor targeted events such as our collaboration with Delta Dental to do a series of workshops on the impact of early dental care on early childhood development.

EEIN is looking to partner with you to continue this most critical work for our professionals and families in NH and beyond.

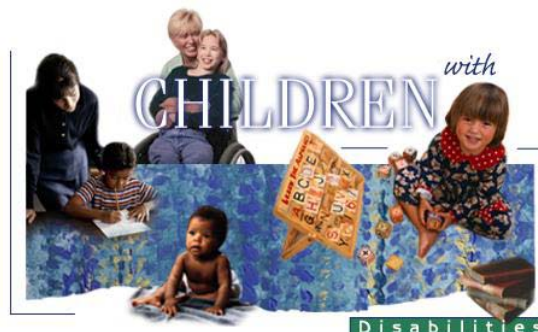

When you support those who work with children and the parents of children with early childhood disabilities and developmental challenges, you offer a gift to the future for all children.

In New Hampshire, there is a shortage of professionals that serve the population of children birth to six with developmental challenges.

EEIN is the only non-profit organization in NH that ensures training specific to these professionals who do this most challenging work with families and their children birth to six. Without training, these professionals leave the field for more profitable settings.

Won't you please help!

Our children and families thank you!
